## COMMUNITY PEACE CENTER OFFERS STUDY SPACE

The Greenfield Community Peace Center is maintaining a library this winter which will be open to the public, Monday thru Thursday, from 7 to 9 pm. The library, at 278 Main St., Room 3]2, will be offering material on such subjects as nonviolence, freedom, militarism, human rights, nuclear warfare, conscientious objection and the draft, Gandhi, world social problems, Vietnam, disarmament, and the United Nations.

Along with the library the Peace Center is offering small rooms for quiet study for students. These rooms are available even if students are not specifically using the Peace Center materials.

LETTERS TO THE EDITOR--

Editor's Note: We apologize for the delay in publishing this letter.

Dear Editor:

This is addressed to all those that "couldn't make it" to the Wednesday Conference on December 13.

So you think you could just skip by and avoid just another boring lecture! Well let me tell you--did you miss something!! Reverend William Hudson's theme, "Religion Today--Can It Be Applied?" was not the dull news that its title might have led you to believe. Really, do you feel you can judge something by its title alone? How dumb can you get?? I was sorry for him, that not more than 20 people, if that many, showed up.

As a member of the Student Christian Conference he is very well qualified and in his own right capable of speaking to you!! Included in his lecture(which he was careful not to take up more time than allowed) was an analysis of

To know

To Do

To Be!

--all of which should be of immense interest to us all, not those just with religion but all those who haven't dropped out all together! Have you?

To the editor:

To any who care!

Ordinarily I am a freshman student of a quiet nature. However, I can no longer restrain comment on the present situation in our library.

There is no excuse for the staff or the patrons to use their vocal chords as much as they do. The college assumes that we are all adults and it's treatment is geared to that supposition. At first, I thought we were adults--now I am beginning to wonder.

As a former public library assistant, perhaps I am being somewhat narrow-minded. I trust not. Though I will say that the public, in general, is more cooperative at maintaining quietness than the students are at GCC.

The library is a place in which silence should be maintained. It was never in-

tended as a place for conversation. Noisy gum chewers should be requested to act civilized. There are many other places for people to get together and talk as loud and as long as they wish.

To employ an old phrase--"There is a time and a place for everything." The library is never the time or place for conversation.
